

CHAPTER VII. THE UROGENITAL SYSTEM

1. The kidneys are placed in:

- a. the abdominal cavity;
- b. the pelvic cavity;
- c. the thoracic cavity;
- d. iliac fossa;
- e. none of the answers is right.

A

2. The kidneys are placed:

- a. in the lumbar region;
- b. intraperitoneal;
- c. above the transverse colon;
- d. all the answers are right;
- e. none of the answers is right.

A

3. The urinary tracts are represented by the following, EXCEPT:

- a. minor and major calices;
- b. the kidney;
- c. renal pelvis;
- d. the urethra;
- e. the urinary bladder.

B

4. The ureter:

- a. is the most dilated part of the urinary tracts;
- b. is placed between the renal pelvis and the urinary bladder;
- c. is between the pelvis and the urethra;
- d. all the answers are right;
- e. none of the answers is right.

B

5. The urinary bladder:

- a. is situated in the pelvis;
- b. is a cavitory organ;
- c. the most dilated part of the urinary tracts;
- d. all the answers are right;
- e. none of the answers is right.

D

6. From the urinary bladder, urine is excreted through the:

- a. ureters
- b. urethra
- c. ureteral tract
- d. all the answers are right;
- e. none of the answers is right.

B

7. The male genital system comprises the following structures:

- a. prostate;
- b. testicle;
- c. ejaculatory duct;
- d. seminal vesicle;
- e. all the answers are right

E

.

8. The testicle is a gland:

- a. endocrine, providing gametes;
- b. exocrine, through sexual hormones secretion;
- c. mixt;
- d. all the answers are right;
- e. none of the answers is right.

C

9. The testicle is situated in:

- a. a muscular sack;
- b. scrotum;
- c. inguinal channel;
- d. abdominal cavity;
- e. all the answers are right.

B

10. The accessory glands of the male reproductive system are:

- a. the spongy body;
- b. the cavernous body;
- c. the penis;
- d. the seminal vesicles;
- e. the clitoris.

D

11. The penis:

- a. is a genital organ;
- b. is a urinary organ;
- c. an unpaired organ;
- d. all the answers are right;
- e. none of the answers is right.

D

12 .The penis is situated:

- a. in the scrotal bursae;
- b. above the scrotum;
- c. behind the pubic symphysis
- d. in the pelvis;
- e. in the abdomen.

B

13. The scrotum:

- a. is situated above the penis;

- b. hosts the testicle;
- c. hosts the penis;
- d. is part of the internal genital organs;
- e. all the answers are right.

B

14. The female genital system structures are:

- a. ovary;
- b. fallopian tube;
- c. vagina;
- d. vulva;
- e. all the answers are right.

15. The internal female genital organs structures comprise the following, excepting:

- a. uterus;
- b. vulva;
- c. vagina;
- d. fallopian tube;
- e. ovary.

B

16. The female gonad is represented by:

- a. ovary;
- b. fallopian tube.
- c. uterus;
- d. vagina;
- e. mammary gland.

A

17. The ovary is situated in:

- a. the abdominal cavity;
- b. the pelvic region;
- c. the inguinal region;
- d. the lumbar region;
- e. the right hypochondriac region.

A

18. The fallopian tubes:

- a. are pair ducts;
- b. part of the female genital ducts;
- c. placed between the ovary and uterus;
- d. collects the ovule produced by the ovary.
- e. all the answers are correct

E

19. The uterus is situated in:

- a. the abdominal cavity;
- b. the pelvic cavity;
- c. the right iliac fossa;

- d. the left hypochondriac region;
- e. the scrotal bursa.

B

20. The uterus is an organ:

- a. a pear-shaped organ;
- b. part of male genital tract;
- c. cavitory;
- d. paired;
- e. all the answers are right.

C

21. The vagina is inserted in:

- a. the uterine body;
- b. the uterine cervix;
- c. the fallopian tube;
- d. the uterine isthmus;
- e. none of the answers is right.

B

22. The vagina:

- a. is a paired organ;
- b. is situated on the pelvic lateral wall;
- c. is a cavitory organ;
- d. is part of the external genital organs;
- e. all the answers are right.

C

23. The external female genital organs comprise:

- a. the fallopian tubes;
- b. the vagina;
- c. the vulva
- d. the ovary;
- e. the uterus.

C

24. The mammary gland:

- a. is an erectile organ.
- b. is part of the internal genital organs.
- c. is an accessory gland of the female genital system;
- d. is an unpaired organ;
- e. none of the answers is right.

C
